

AZUD TUB

White microirrigation tube PE 32,
HIDRO-P tube and microtube

What it is

White microirrigation tube PE 32, HIDRO-P tube (microirrigation tube with drilled hole) and microtube manufactured with first quality raw materials and with the strictest quality control.

Application

- For greenhouses irrigation.
- For hydroponic irrigation.
- For irrigation in nurseries.

Advantages

- White tube prevents irrigation water temperature from reaching critical values for the crop.
- Due to its opacity, it avoids efficiently the growing of algae.
- Long-life tube and microtube. High resistance to ultraviolet rays.
- The insertion of drippers and fittings is easy and flexible.

WHITE MICROIRRIGATION TUBE PE 32

Nominal diameter	Wall thickness		Maximum pressure		Coil length		Coils per container HC 40 feet	Coils per trailer
	mm	mil	bar	psi	m	feet		
16	1.2	47	2.5	36	400	1312	384	432
20	1.3	51	2.5	36	250	820	360	432

WHITE HIDRO-P TUBE (microirrigation tube with drilled hole)

Nominal diameter	Wall thickness		Drill hole distance	Maximum pressure		Coil length		Coils per container HC 40 feet	Coils per trailer
	mm	mil		bar	psi	m	feet		
16	1.2	47	0.15-2	2.5	36	400	1312	384	432
20	1.3	51	0.15-2	2.5	36	250	820	360	432

WHITE MICROTUBE

Type	Diameter	Cut	Coil length
	mm		
FLEX	5.3 x 3.3	0.4-0.6	-
FLEX	5.3 x 3.3	-	700
FLEX	6 x 4	-	1500
FLEX	6.5 x 4	0.4-0.6	-

*Other lengths of coil under request. Ask AZUD for other different lengths in the microtube cut.
